CHRISTIAN LORRENCE BANDOQUILLO ALPARO

- **Address:** Birhen sa Lourdes, Indangan, Davao City, Davao del Sur, Philippines
- **Email:** lorrence.alparo@gmail.com
- **Contact No.:** 09369924217
- **GitHub:** github.com/Jukurenmono
- **LinkedIn:** linkedin.com/in/christian-lorrence-alparo-78bb5434b
- **Portfolio Website:** christianlorrencealparo.vercel.app

PROFESSIONAL SUMMARY

Aspiring Full-Stack Software Developer with hands-on experience developing web and mobile applications through academic projects and internship experience. Proficient in Angular, React.js, React Native, Next.js, TypeScript, JavaScript, PHP, and Bubble.io, with experience in SQL databases, REST API integration, Azure DevOps, Git, and modern software development practices. Passionate about building scalable applications, solving complex problems, and continuously learning new technologies.

TECHNICAL SKILLS

- **Programming Languages:** TypeScript, JavaScript, PHP, Python, C#, SQL
- **Frameworks & Libraries:** Angular, React.js, React Native, Next.js, Bubble.io, Tailwind CSS, SCSS
- **Databases:** MySQL, PostgreSQL, Firebase, Supabase, phpMyAdmin
- **Tools & Platforms:** Azure DevOps, Git, GitHub, Vercel, Expo
- **Other Skills:** REST API Integration, Database Management, Authentication, Debugging & Troubleshooting, UI Testing, Agile Development, Problem Solving

PROJECT & EXPERIENCE

Jairosoft – eLearning Management System (eLMS)
Intern Developer (OJT)

- Contributed to the development and maintenance of the company's eLearning Management System (eLMS) using **Bubble.io.**
- Implemented bug fixes, workflow automation, and user interface improvements.
- Utilized **Azure DevOps** for work item tracking, project collaboration, and development workflow management.
- Performed **debugging**, **testing**, and **feature optimization** to improve application performance and reliability.
- Collaborated with the development team in an **Agile environment** to deliver functional application features.

BayadBox – React Native Application/IOT Integration
Academic Project

- Developed a mobile payment application using **React Native**, **TypeScript**, and **Supabase**.
- Implemented secure **user authentication**, **RFID integration**, **top-up management**, **transaction history**, and **fare calculation**.
- Designed and managed **cloud database** structures for efficient and reliable data storage.
- Focused on **debugging**, **feature optimization**, and maintaining a consistent user interface.

HCDC COMELEC – Web-based Voting System
Collaborative Project

- Developed a **web-based electronic voting system** using **PHP, MySQL, and JavaScript**
- Set up and managed the **database structure** for voters, candidates, ballots, and results
- Handled **data processing, validation, and troubleshooting** to ensure accurate vote counting
- Performed **bug fixes and system optimization** during mock and actual election runs

HCDC ITS PORTAL
Academic Project

- Developed an integrated web portal for the Information Technology Society (ITS) of Holy Cross of Davao College using **Next.js**, **PostgreSQL**, **TypeScript**, **Vercel** and **Paymongo**
- Implemented attendance monitoring, student and administrator dashboards, online membership fee payments, and sanction tracking
- Designed and managed the database to support student records, payment transactions, and attendance data
- Handled backend development, database management, and query optimization to ensure efficient and reliable system performance

Project Tracker - Project Progress Management System
Personal Project

- Developed a web-based project management application using **Next.js**, **TypeScript**, **Firebase**, and **Tailwind CSS**
- Implemented **Google Authentication** using **Firebase Authentication** for secure user sign-in and account management
- Developed project organization, task tracking, and progress monitoring features to improve productivity
- Designed and managed the **Firebase database** structure for storing and organizing project and task data
- Performed **debugging**, **feature enhancements**, and **user interface optimization** throughout development

EDUCATION

Bachelor of Science in Information Technology (BSIT)
Holy Cross of Davao College
2022 – 2026

Science, Technology, Engineering, and Mathematics (STEM)
Philippine Academy of Sakya Davao Inc.
2020 - 2022

Cabantian National Highschool
2015 – 2020

Teofilo V. Fernandez Elementary School
2009 – 2015

CERTIFICATIONS

- Learn PHP and MySQL for Web Application and Web Development
- Build Complete CMS Blog in PHP, MySQL, Bootstrap & PDO
- Introduction to SQL
- Introduction to Front End Development
- Introduction to OpenCV for Beginners
- Machine Learning Using Python
- Jairosoft Inc. OJT Completion

SOFT SKILLS

- Analytical thinking
- Attention to detail
- Fast learner
- Team collaboration
- Time management

ADDITIONAL INFORMATION

- Willing to learn new technologies

- Comfortable working independently or in a team
- Strong interest in software debugging and optimization
